- a. Financial Statements – Paul presented the 2016-2017 Financial Statements to the Members. Paul stated the Fanshawe Student Union runs on a six million dollar operation which includes all of the services the FSU provides including the health plan, bus pass, advocacy, etc. and thus the FSU requires an independent audit to be completed each year. The Members read the audit letter, which is addressed to the Members, and included the audit opinion which was unqualified. There was a question regarding the fee structure for

International Students verses Domestic Students and how the structure is determined. Paul explained that Domestic students receive grants from the Government which subsidises the tuition, varying program to program, to allow a student to attend College, however, the College does not receive these grants for International Students which makes the tuition higher for International students. Paul noted if the Member would like more information and research on the fee structure, it would be a good question to ask of the new incoming Board.
